August 5, 2024

Mayor and Commissioners,

I am pleased to provide the proposed Fiscal Year 2024–2025 (FY25) for the Town of Sewall's Point. The recommended FY25 budget is presented in a "Budget-In-Brief" format. Significant issues are highlighted, with a brief statement of policy intent. The following reports are included in this document:

- Page 2 Budget Calendar
- Page 3 Policy Issues Overview
- Page 5 Property Tax Recommendation
- Page 7 Budget by Fund
- Page 10 Fire Rescue Contract
- Page 11 Employee Retention Policies
- Page 12 Budget Position Control and Pay Plan
- Page 13 Capital Improvement Plan
- Page 15 Unfunded/Future Items
- Page 16 Zero based budget line item detail report

In preparing the operating budget, staff has utilized a "zero based budget" technique, evaluating and calculating the specific content of each line item. This provides important background information and documents the intended use of the monies. For those who wish to review the detail, this report is provided as an appendix to the Budget in Brief.

Respectfully Submitted,

Robert Daniels
Town Manager

TOWN OF SEWALL'S POINT FY 2025 BUDGET CALENDAR

- April 01, 2024 Begin budget preparation – Departments Provided Budget History & Asked to Prepare FY25 Budget Request
- April 9, 2024 – Commission Meeting – Stormwater Utility Discussion
- April 30, 2024 – Departmental Budgets due to Town Manager
- May 14, 2024 – Commission Meeting/Public Hearing Capital Improvement Plan
 - Capital Improvement Plan (CIP)/Resolution Adopting
- June 1, 2024 - Preliminary estimate of tax roll is released
- July 1, 2024 Certified tax roll is released
- July 18, 2024 – Commission Meeting
 - Set Tentative Millage Rate
 - Adopt policy resolutions
 - Resolution continuing the 0.40 capital millage dedication for FY25
- August 13, 2024 – Budget Workshop/Commission Meeting
 - Overview of Budget
 - Review Personnel Policies & Classification and Pay Plan
 - Review Previous adopted policy resolutions
 - Adopt policy resolutions – *These may be deferred to a public hearing*
- September 9, 2024 – Tentative Budget Hearing
 - Required preliminary statements

 - Motion to adopt the tentative millage rate
 - Motion to adopt the tentative budget
- September 23, 2024 – Final Budget Hearing
 - Required preliminary statements
 - Receive public comment
 - Motion to adopt the final millage rate
 - Motion to adopt the final the budget

TOWN OF SEWALL'S POINT POLICY ISSUES OVERVIEW

The following is a summary of the central policy issues to be considered in adopting the budget. A brief rationale for each is described in the following pages.

Property taxes. Maintain a level tax rate to avoid year to year ups and downs. Tax base increased by 7.8%, generating projected revenue increase of about \$300,000.

Policy Considerations:

- ***Recommend 2.87 mill tax rate for General Fund***
- ***Recommend 0.40 mill tax rate for Capital Improvement Fund***
 - ***FY25 designated for Road Resiliency once again, with a special focus on Phase 2 & 3.***

Fiscal Sustainability – Budget by Fund. Establish a structurally balanced budget by separating recurring revenues from non-recurring revenues.

Policy Considerations: Previously Approved

- Continue budgeting three funds: General Fund, Building Fund, & Capital Improvement Fund
- Continue formally adopting existing reserves.
 - Operating reserve \$500,000
 - Disaster reserve \$1,000,000
 - Fire-Rescue reserve \$400,000

Fiscal Sustainability – Funding for Fire-Rescue contract in FY25. The contract increases from \$532,783 in fiscal year 2024 to \$763,061 in fiscal year 2025. It is recommended to utilize the savings from the general fund ending fund balance in fiscal year 2024, and retaining the \$400,000 Fire-Rescue reserve for future payments.

Policy Considerations:

- Recommend a portion of the net revenues at the end of FY25 to be added to the restricted balance dedicated to Fire-Rescue increase. The future cost of this contract will continue to have a significant budget impact that will continue to increase approximately \$20,000 a year beginning in FY26 through FY29. Discussions on funding mechanisms for this continued services contract should be discussed prior to FY27.

Employee retention. Continue to focus on employee retention in a tight labor market.

Policy Considerations:

- Recommend a cost of living increase of 4% in employee wages; includes additional cost for wages, employer taxes and retirement.
- Recommend maintaining the current medical benefits for all employees – an increase of 8%
- Recommend accelerating the retirement vesting schedule (no budgetary impact).
- Update Human Resource Manual policies regarding leave accruals (no budgetary impact).
- Update Position Control and Pay Plan (annual update).

TOWN OF SEWALL'S POINT
POLICY ISSUES OVERVIEW
(continued)

IT Upgrade – The Town of Sewall's Point will be required to obtain a dedicated server along with upgrading to G365, which meets the legal requirements of government agencies and police departments. This is estimated to cost an additional \$50,000 - \$75,000 in FY25 which is included in the proposed budget.

Capital Improvements Plan (Resolution No. 971 Adopted May 28, 2024). Continued focus on South Sewall's Point Road Resiliency looking for additional funding to help minimize the financial impact to the residents. Does the Town Commission want to accelerate the projects via a loan?

Policy Considerations:

- The South River Road drainage project is estimated at \$2.5 Million. The Commission has approved initiating a portion of the South River Road Improvement Project to be started due to an increase in flooding issues near Margarita. The approved amount is \$250,000, funded by the .40 mill Capital Improvement Fund. The remainder of the project has been requested through a DEP grant.
- The next Septic to Sewer projects in South Sewall's Point. The Town currently has a grant for this project that is utilizing the residential connection fees as the Town's 50% match. Part one of this project is approximately 90% complete. Work in part two of this project should begin in FY25, with the final portion of this project being completed in FY26.

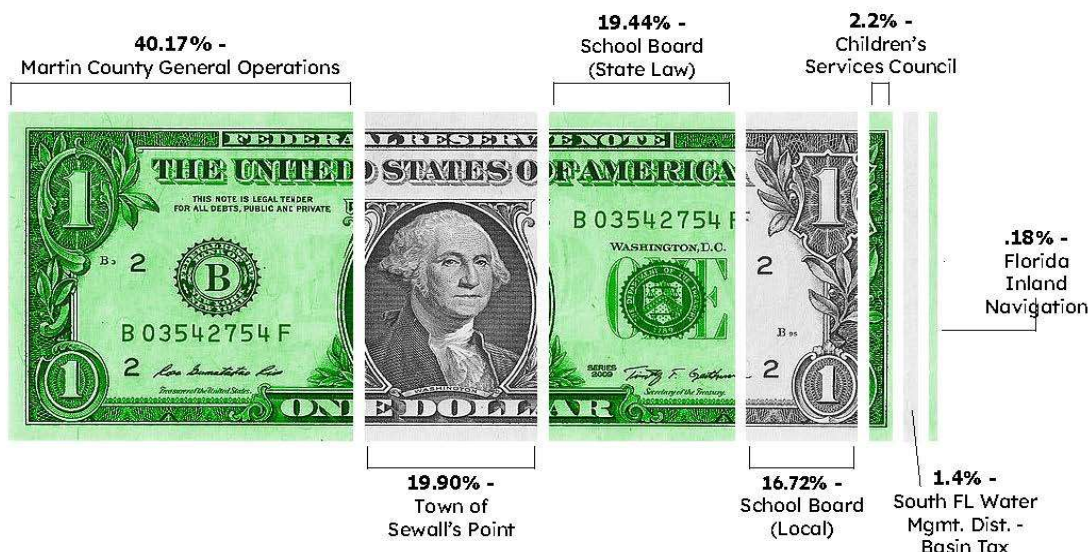

TOWN OF SEWALL'S POINT PROPERTY TAX RECOMMENDATION

Property taxes are of course the most important policy ingredient of municipal budgeting. The tax base has increased by over seven percent (7.85%). Total tax base of \$991.8 million produces additional General Fund income of \$260,000 at 2.87 mills. The Capital Improvement portion (.40 mills) of the tax rate will produce approximately \$385,000 for FY25, an increase of about \$40,000.

Staff recommends continuing the same millage rate of 3.27 mills. Maintaining a level millage rate avoids having ups and downs from year to year and fully supports fiscal sustainability. The town has taken a great first step by classifying its property tax rate into two types:

- **Operating millage of 2.87 mills is recommended.** The Town has painstakingly maintained its operating millage for seven years running now. This is excellent public policy because it matches recurring revenue to important recurring town operations. Current recurring operations are fully funded at this level. However, as recurring operations continue to steadily increase, there may be a need to re-evaluate the future millage rate for sustainability.
- **Capital millage rate of 0.40 mills is recommended.** Given the tremendous policy step the town has already taken, the Manager strongly recommends maintaining this rate again for FY25. Although this produces a modest income of \$385,000, it provides an important local contribution to the ambitious level of effort in the town's Road Resiliency Program.
- **Combined millage rate of 3.27 mills** represents a 7.85% increase over the Roll-Back Rate.

Where Do Your Property Tax Dollars Go?

Based on fiscal year 2023 data

Updated 8/13/2024

**TOWN OF SEWALL'S POINT
BUDGET BY FUND
SOURCES AND USES**

In FY23, the Town's management proposed moving from a single fund for accounting purposes to a conventional fund structure commonly utilized by municipalities. This allowed the Town to clearly align the sources of income with the type of expenditure it supports¹. The following three funds were created and continue to be budgeted:

1. **General Fund.** Fifty-eight percent (58%) of the General Fund goes to public safety – Sewall's Point Police Department and Stuart Fire-Rescue. Forty-two percent (42%) goes to Town Hall operations (Manager, Clerk, finance, insurance, maintenance, park maintenance, etc.).
 - Funded by recurring revenues which are not restricted to any specific uses. Seventy-five percent (75%) of the funding comes from the 2.87 mill property tax, with about twenty-five percent (25%) coming from other recurring general revenues.
2. **Building Fund.** Building department costs including overhead.
 - Funded by building permit fees which are restricted to paying for permit related costs. These are recurring but may vary substantially from year to year. Excess fees should be held in reserve in order to maintain continuity of operations during periods of economic downturn, provided it does not go over the statutory limitations. A separate fund allows clear accountability for the collection and use of permit fees.
3. **Capital Improvement Fund**
 - **Capital Improvements Program.** Major capital improvements.
 - Majority funding comes from one-time sources such as grants. Recurring funding serving as local grant match is from road improvement fees and the dedicated 0.40 mills property tax. This budget should directly correspond with the first year of the five-year Capital Improvement Program.
 - **Capital Maintenance.** Costs of maintaining the Town's capital assets, e.g., road resurfacing, bridge repairs, and stormwater drainage systems.
 - Funded mostly with recurring road-related fees.
 - As infrastructure is added, additional funding will be required.

Recommend formal adoption of operating reserves, disaster reserves, and fire-rescue reserves.

¹ "Most state and local governments are subject to a requirement to pass a balanced budget. However, a budget that may fit the statutory definition of a "balanced budget" may not, in fact, be financially sustainable. For example, a budget that is balanced by such standards could include the use of non-recurring resources, such as asset sales or reserves, to fund ongoing expenditures, and thus not be in structural balance. A true structurally balanced budget is one that supports financial sustainability for multiple years into the future. A government needs to make sure that it is aware of the distinction between satisfying the statutory definition and achieving a true structurally balanced budget... As a first step, the government should identify key items related to structural balance. These include: *recurring and non-recurring revenues, recurring and non-recurring expenditures, and reserves.*"

**TOWN OF SEWALL'S POINT
FIRE RESCUE AGREEMENT**

The Town contracts with the City of Stuart for Fire-Rescue services for town residents. This is a very cost-effective means of providing the service. However, the contract calls for a major increase from \$565,231 in FY24 to \$763,061 in FY25. This is an increase of \$197,830 which is being funded in FY25 from the savings seen in the general fund in FY24.

- Below is the payment schedule for the remaining 5 years. It is important to note, that an increase of this magnitude will continue to have a significant bearing on future budgets.

*During FY25, staff recommends starting initial negotiations for a successor agreement with the City of Stuart Fire & Rescue.

TOWN OF SEWALL'S POINT EMPLOYEE RETENTION POLICIES

Recruiting and retention once again deserve special attention this budget year. The current labor market continues to be very difficult. Employers across all segments of the economy are having difficulty filling positions and many are resorting to hiring bonuses. The Town is very fortunate to have highly competent staff. The following policies are recommended to help assure retention of current personnel² and recruitment.

- Recommend a wage increase for employees of four percent (4%).
- Recommend remaining with the current insurance plan that is offered to the employees. Insurance had an increase of 8%. Our goal each year is to keep the increased cost below 10%.
- Recommend amending the retirement plan to modify vesting. Presently vesting begins at 20% at the end of two years, then graduates 20% each year, and full vesting occurs at the end of the sixth year of employment.
 - Recommend changing the vesting schedule to the following:
 - End of Year 2 – 25%
 - End of Year 3 – 25%
 - End of Year 4 – 25%
 - End of Year 5 – 25%

This will help encourage employees to remain with the Town during the critical two (2) to five (5) year employment tenure.

Recommend Approve the Position Control and Pay Plan, below.

² The Town is presently in labor negotiations, so certain of these policies may or may not be applicable to police officers, unless or until they are negotiated.

CAPITAL IMPROVEMENTS PLAN
(ALREADY APPROVED)**

Background Guidance

Over the past four years, the Town Commission has undertaken significant policy steps to guide the future character of the town. The January 2020 workshops resulted in three important priorities: Financial responsibility, environmental stewardship, and mobility, each encompassing a range of activities. This was followed in 2021 & 2023 with a strategic plan which detailed road resiliency (mobility), stormwater (environmental stewardship), and other capital project needs over the next decades. The Town Commission adopted a comprehensive plan revision in 2022, including a first ever capital improvement element, complete with goals, objectives, and policies.

These policy guidance documents have been studied and form the basis of the proposed Capital Improvement Plan (CIP). Most notably, the CIP updates cost and timing of the planned projects with the best current information. It also delineates the revenue sources required to fund the projects, thereby addressing financial responsibility.

Capital Improvement Projects. Capital projects are funded primarily with non-recurring revenues and are segregated into a separate fund to preserve the dedicated revenues being used such as the 0.40 dedicated millage and one-time revenues such as grants.

Capital Maintenance. The town's major investments in capital projects should be matched with an on-going recurring maintenance program funded with recurring revenues.

Additional grants are being sought for multiple projects. Some projects might not have any funding source currently identified. The below sheet, represents the best cost estimate with available data for each project at the time it was drafted. As the Town has seen recently, these figures will fluctuate. This is presented as a 5-year plan, knowing that additional monies will need to be sought and secured to move forward with the unfunded capital projects.

The Capital Improvement Plan was adopted by Resolution No. 971 on May 28, 2024 with a roll call vote of 4 o 1 with the descending vote being Commissioner Barile. Please see the adopted CIP on the next page.

TOWN OF SEWALL'S POINT UNFUNDED ITEMS/FUTURE ITEMS

Not every budget item that is examined gets funded and there are some items that the Town has been notified about that will need to be funded in future years.

The following items are noted as unfunded, but the Town Commission should be aware of these matters. The staff has instituted a replacement policy of forecasting large expenditures over future years. This involves primarily vehicle and computer replacements. The following are projections:

- **Vehicle replacement.** The Town will need to replace one police vehicle each fiscal year. Vehicle replacement cost is estimated at \$80,000 per vehicle to acquire and fully equip the vehicle for police work. The Town will be looking at a truck replacement for public works within the next three years.
- **IT Upgrade** – The Town of Sewall's Point will need to begin planning for computer replacements on a regular basis.
- **Capital maintenance.** The Town engineer has identified future capital maintenance costs for Streets, Bridges, & Seawalls which currently are not budgeted for, along with increased Stormwater System maintenance as infrastructure is added.
 - Recommend a thorough review of all existing infrastructure. This may then be used to construct a more formalized renewal and replacement program.
