                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | S. 227                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | 00                                                                        #### A/C PERMIT APPLICATION 2010 FLORIDA BUILDING CODE

A document review will be performed on the following items prior to the submittal of a permit application. Failure to submit these items will result in the application package returned to the applicant until the deficient documents are included. This review sheet must accompany the application submittal.

Please make sure you have ALL required copies before submitting permit application

#### \*\*\*\*NOTE: LOCKING ACCESS PORT CAPS ARE REQUIRED FOR REFRIGERANT LINES LOCATED OUT DOORS PER FBC/R – M1411.6

#### COMMERCIAL APPLICATIONS ADDITIONALLY REQUIRE

**2** Copies A/C Stand NOA or Engineers letter to retrofit to existing mounts.

\_\_\_\_\_ Smoke Detectors in supply duct for units over 2000 CFM

#### Air Conditioning Change out Affidavit

Residential \_\_\_\_ Commercial \_\_\_\_

Package Unit \_\_\_\_ Yes \_\_ No (Use Condenser side of form below for equipment listing) Duct Replacement \_\_\_\_ Yes \_\_ No - Refrigerant line replacement \_\_\_\_ Yes \_\_ No Flushing Existing Refrigerant lines \_\_ Yes \_\_\_ No - Adding Refrigerant Drier \_\_ Yes \_\_\_ No Rooftop A/C Stand Installation \_\_\_\_ Yes \_\_ No - Curb Installation \_\_\_\_ Yes \_\_ No

Smoke Detector in Supply (over 2000 CFM) \_\_\_\_ Yes 🟒 No

#### One form required for each A/C system installed

#### **Certification:**

I herby certify that the information entered on this form accurately represents the equipment installed and further that this equipment is considered matched as required by FBC – R (N)1107 & 1108

Signature

5-16-13

Date

This combination qualifies for a Federal Energy Efficiency Tax Credit when placed in service between Feb 17, 2009 and Dec 31, 2013.

## **Certificate of Product Ratings**

AHRI Certified Reference Number: 3930029

Date: 5/15/2013

Product: Split System: Air-Cooled Condensing Unit, Coil with Blower

**Outdoor Unit Model Number: 14AJM49** 

Indoor Unit Model Number: RBHP-24+RCHL-48A1

Manufacturer: RHEEM MANUFACTURING COMPANY

Trade/Brand name: RHEEM 14AJM SERIES

Manufacturer responsible for the rating of this system combination is RHEEM MANUFACTURING COMPANY

Rated as follows in accordance with AHRI Standard 210/240-2008 for Unitary Air-Conditioning and Air-Source Heat Pump Equipment and subject to verification of rating accuracy by AHRI-sponsored, independent, third party testing:

| Cooling Capacity (Btuh):                                                                                                                                                                                                                  | 45500*                                                                                                                                                                                                                                                                                                          |

## Equipment selection

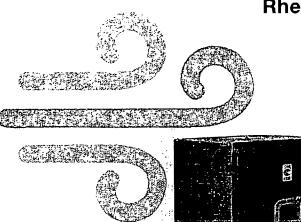

System equipment selection will be made using the following derived values.

| Glass (SE)                                                                                                                                                                 | 149 sq. ft.                                                                   |

The new degree of comfort."

## Rheem High Efficiency Air Handler

#### RBHP- Series X-13 (ECM) Motor Efficiencies up to 16 SEER

- Industry Standard R-410A Refrigerant also Suitable for R-22
   Applications
- Models featuring Electric Heat without Indoor Cooling Coil
- Quiet and efficient X-13 (ECM) motor technology
- Only 35" tall and 4-way convertible for all those tight spaces
- Available from factory in upflow and horizontal configurations
- Nominal airflow up to 0.5" external static pressure with reduced airflow up to 1.0" external static pressure
- Factory installed MultiFlex<sup>®</sup> coils
- Sturdy steel construction with 1 inch [25.4 mm] of foil faced insulation for excellent sound and insulating characteristics

- Permanent, easily accessible and washable filter furnished standard
- Circuit breaker (standard on units with more than 11 kW) meets U.L. and cUL requirements for service disconnect
- Factory installed auxiliary electric heat provides exact heat for indoor comfort over a variety of applications
- Watt restrictors, standard on RBHP-17 models above 6 kW and on RBHP-21, RBHP-24 & RBHP-25 models above 11 kW, stage supplemental heat so that only the necessary amount is engaged to maintain comfort in the conditioned space
- Fan settings for selectable, customized cooling airflow over a wide variety of applications

#### **Engineering Features**

**RBHP-Series** 

- Quiet, efficient X-13 (ECM) motor technology providing nominal airflow to 0.5 inch [12 kPa] of external static pressure.
- Field selectable airflow to meet the requirements of particular applications.
- Low continuous fan speed.
- The most compact unit design available.
- · Attractive pre-painted cabinet exterior.
- Rugged steel cabinet construction, designed for added strength and versatility.
- 1" foil faced insulation mechanically retained in blower compartment.
- · Four leg rubber insulated wire motor mount.
- Circuit breakers standard on models above 11 kW and optional on models with 11 kW or less.
- Models supplied with circuit breakers meet UL and cUL requirements as a service disconnect switch.
- Provisions for field electrical connections from either side of air handler cabinet.
- Tab lock blower housing with integrated electric heaters, controls, motor and blower. Slide out design for service and maintenance convenience.
- Exclusive dependable Incoloy sheath type electric heating elements located in the blower housing provide mixed warm air.
- Field convertible for vertical upflow, vertical downflow, horizontal left hand or right hand air supply.

 Common combustible floor base accessory fits all model sizes when required for downflow installations on combustible floors.

**Engineering Features** 

**RBHP Series** 

Air

- Durable framed cleanable air filter provided as standard in unit filter rack.
- MultiFlex<sup>®</sup> indoor coil design provides low air side pressure drop, high performance and extremely compact size. All coils come with PVC condensate elbow standard.
- · All indoor coils have copper tubing and aluminum fins.
- Molded polymer corrosion resistant condensate drain pan is provided on all indoor coils.
- Both supply and return duct flanges provided as standard on air handler cabinet.
- Connection points for both high voltage and low voltage control wiring inside air handler cabinet.
- Concentric knockouts are provided for power connection to cabinet. Installer may pull desired hole size up to 2 inches [51 mm] for 1<sup>1</sup>/<sub>2</sub> inch [38 mm] conduit.
- Patented watt restrictor on heat pump models to control electric heat during heating operation.
- Internal checked TX valves are used on the RCHJ & RCHL Heat Pump indoor coil for more quiet refrigerant metering.
- · Front refrigerant and drain connections.
- [ ] Designates Metric Conversions

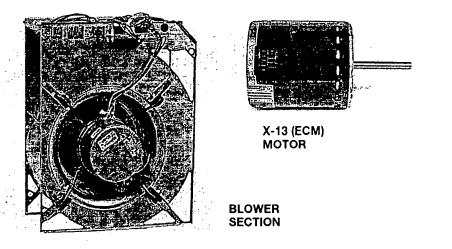

#### Watt-restrictor

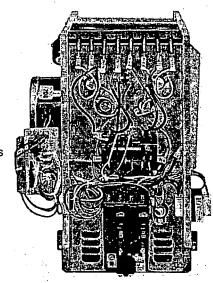

Supplemental heat, provided by electric heating elements may be necessary in some areas when heating requirements for indoor comfort exceed the capacity of the heat pump system. When supplemental heat is required, units with the Watt Restrictor will restrict the amount of supplemental electric heat that can be energized dependent on the heat output of the heat pump (temperature of the air leaving the indoor heat pump coil).

The Watt-restrictor utilizes sensing devices in the unit to sense the air temperature leaving the indoor coil and disengage unnecessary heating elements when that temperature is at least 85°F [29°C]. (In this mode your system is controlled by the first stage of the wall thermostat.) This occurs only when the second stage of the wall thermostat calls for heat.

Since the heat output of the heat pump is dependent upon the outdoor air temperature, this control performs the same function as a field installed outdoor thermostat.

An additional benefit of the Watt Restrictor is that it can sense a degradation in heat pump performance due to causes other than outdoor temperature and react accordingly to bring on more supplemental electric heat.

#### **14AJM- Series**

Efficiencies up to 16 SEER/13 EER Nominal Sizes 11/2-5 Ton [5.28 to 17.6 kW] Cooling Capacities 17.3 to 60.5 kBTU [5.7 to 17.7 kW]

"Proper sizing and installation of equipment is critical to achieve optimal performance. Ask your Contractor for details or visit www.energystar.gov."

Note: Above image does not show deep drawn basepan.

- · Outdoor air conditioner designed for ground level or rooftop installations. These units offer comfort and dependability for single, multi-family and light commercial applications.
- · Painted louvered steel cabinet
- · Easily accessible control box

- · Condenser coils constructed with copper tubing and enhanced aluminum fins
- · Grille/Motor mount for quiet fan operation
- Filter Drier (shipped not installed)

NOTES: "Standard line size

Using suction line larger than shown in chart will result in poor oil return and is not recommended. 3 Ton Suction Line Connection is 3/4"

#### [ ] Designates Metric Conversions

WARNING: HAZARDOUS VOLTAGE DISCONNECT POWER BEFORE SERVICING

#### PART NUMBER

#771 (4 pk) #772 (100 box) #770 (4 pk including hardware)

#### **CONSTRUCTION**

16 gauge galvanized steel, G-90 rated for corrosion coastal applications.

#### **PACKAGING DETAILS**

All anchor clips are supplied as per package quantities described above.

#### **INSTALLATION**

Minimum of 4 clips required per condenser unit. Minimum of 2 #14 x 3/4" screws with neoprene washer required o fasten clip to condenser unit. 1/4" x 1 3/4" Tapcon screw required to fasten clip to condenser pad.

Locate the anchor clips to fit comfortably between condenser unit and pad.

Adjust clip accordingly to fit on condenser unit and screw together, at the same time ensuring that the base of the clip is still in contact with the pad. All hardware must be fastened prior to connecting refrigerant lines and electrical power to the unit. Suitable for ground mounted units. Anchor clip design meets requirements of

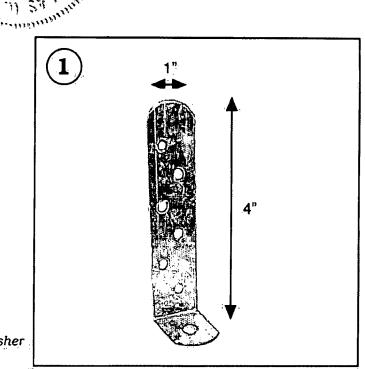

The Florida Building Code 2007 (Building) chapter 301.12 for wind resistance up to 140 MPH.

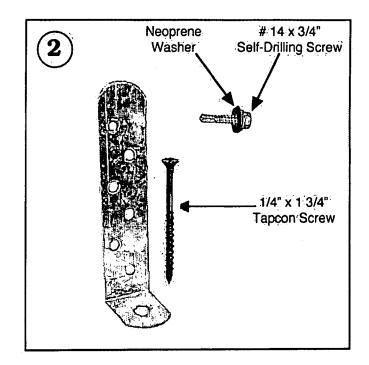

#### **FEATURES**

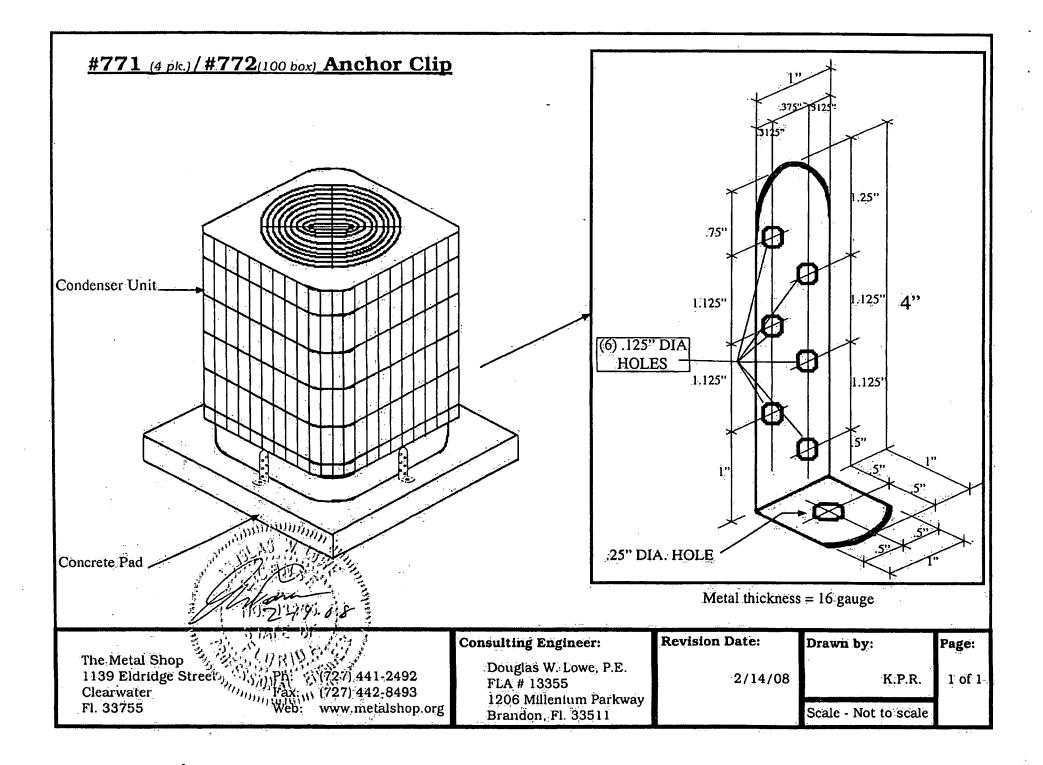

The use of "sized to fit" screw holes compared to slots means that security is never comprimised. A tight, secure fit between pad and condenser ensures security for the condenser and offers great assurance during extreme weather conditions.

#### NOTE

Above installation instruction suitable for up to 5 ton units.

#### APPLICATION FOR TREE REMOVAL, RELOCATION OR REPLACEMENT PERMIT ON DEVELOPED RESIDENTIAL PROPERTY

#### No permit required for:

- 1. Trimming of trees unless it effectively removes it, meaning trimming or pruning to the extent that a plant's natural function is severely altered.
- 2. Removal of trees with a diameter of less than two inches.
- 3. Removal of citrus or non-native fruit trees.

#### Sec. 70-22. Permit required for tree removal.

A permit as provided for in this chapter shall be required for the removal (or transplant) of any tree with a two-inch caliber or more upon any parcel upon which there is a residence under a validly issued permit. Permit requirements are outlined under article V Town Ordinances. If the town has to procure the services of a suitable professional licensed in the State of Florida to ascertain the condition or type of a tree(s) prior to or after removal of the tree(s) then the cost of such will be borne by the property owner. (Ord. No. 303, 7-20-04)

#### **Application procedures:**

- 1. Complete application information including sketch below.
- 2. Place identification tape or ribbon on each tree for clarity to inspector if necessary.
- 3. Inspector will visit site and review application and pass, fail or revise.
- 4. Permit must be picked up and posted on site prior to work proceeding.
- 5. Permits expire if work does not begin within 3 months and if activity is interrupted over 45 days.

#### Permit Fee:

- 1. Tree permits are \$15.00.
- 2. Permit No fees are assessed for tree which is dead, diseased, injured, hazardous to life or property, or listed as a prohibited species by the Florida Department of Environmental Protection.

#### NOTICE:

## A PERMIT WILL NOT BE ISSUED FOR THE REMOVAL ANY NATIVE SPECIES TREES UNLESS ONE OR MORE OF THE FOLLOWING CONDITIONS EXIST: (SEC. 70-87. PERMIT ISSUANCE OR DENIAL TOWN ORDINANCES).

**A.** THE VEGETATION IS LOCATED IN AN AREA WHERE STRUCTURES, UTILITIES OR IMPROVEMENTS MAY BE PLACED ACCORDING TO THE TOWN CODE; AND TO PRESERVE THE VEGETATION WOULD UNREASONABLY RESTRICT THE ECONOMIC ENJOYMENT OF THE PROPERTY; AND THE VEGETATION CANNOT BE RELOCATED ON THE SITE BECAUSE OF AGE, TYPE OR SIZE.

**B.** THE VEGETATION IS DISEASED, INJURED, LOCATED TOO CLOSE TO THE EXISTING OR PROPOSED STRUCTURES, INTERFERES WITH EXISTING UTILITY SERVICE, OR CREATES UNSAFE VISUAL OBSTRUCTION. (<u>A PROFESSIONAL ARBORIST'S OPINION WILL BE REQUIRED</u>) **C.** THE VEGETATION IS TO BE MOVED TO ANOTHER LOCATION ON THE OWNER'S PROPERTY OR IS TO BE REPLACED BY ANOTHER TREE OR SHRUB ON THE OWNER'S PROPERTY, REGARDLESS OF LOCATION.

IF THE PERMIT IS DENIED, THE DEPARTMENT SHALL NOTIFY THE APPLICANT IN WRITING OF THE BASIS FOR DENIAL USING THE CRITERIA LISTED IN THIS SECTION.

#### \*\*\*THE FOLLOWING SPECIES ARE CONSIDERED NATIVE, PROTECTED SPECIES\*\*\*:

BLACK IRONWOOD, BLACK MANGROVE, BLOLLY, BUTTONWOOD, CABBAGE (SABLE) PALM, COCOPLUM (RED TIP AND GREEN TIP), CORAL BEAN, DEER MOSS, GRAY TWIG, GOPHER APPLE, GUMBO LIMBO, INKWOOD, LAUREL OAK, LEATHER FERN, LIVE OAK, MAHOGANY, MARLBERRY, MASTIC, MULBERRY, MYRTLE OAK, PARADISE TREE, PIGEON PLUM, POND APPLE, PRICKLY PEAR, RED MANGROVE, RED MAPLE, RED BAY, SAFFRON PLUM, SAND PINE, SCRUB PINE, SATINLEAF, SAW PALMETTO, SCRUB HICKORY, SEA GRAPE, SEA OXEYE, SLASH PINE, STOPPERS, WILD LIME, SUMAC (SOUTHERN), SUGAR BERRY (HACKBERRY), TORCHWOOD, WILD COFFEE, VARNISH LEAF, WATER OAK, WAX MYRTLE, WEST INDIAN CHERRY, WHITE MANGROVE.

#### TOWN OF SEWALL'S POINT APPLICATION FOR TREE REMOVAL, RELOCATION, REPLACEMENT

Tree Defined: Any self-supporting, woody plant which normally grows to an overall height of at least fifteen (15) feet in the vicinity of the town. Replant and landscape trees shall be considered a tree.

#### No permit required for:

1. Trimming of trees unless it effectively removes it, meaning trimming or pruning to the extent that a plant's natural function is severely altered.

2. Trees with a diameter of less than one inch.

#### Permit Fee:

11

- 1. Tree permits are \$15.00, payable in advance.
- 2. No permit fee needed for tree which is dead, diseased, injured, hazardous to life or property, or a prohibited species. Prohibitive species include Earleaf Acacia, Woman's Tongue, Norfolk Island Pine, Bischofia, Schefflera, Ear Tree, Eucalyptus, Non-Native Ficus, Silk Oak, Chinese Tallow Tree, Java Plum, Chinaberry, Brazilian Peppers, Australian Pine, and Melaleuca and must be removed before construction begins on new single family residence (S.F.R.).

No removal permits will be issued for native species trees: Black Ironwood, Black Mangrove, Blolly, Buttonwood, Cabbage Palm, Cocoplum (red tip and green tip), Coral Bean, Deer Moss, Gray Twig, Gopher Apple, Gumbo Limbo, Inkwood, Laurel Oak, Leather Fern, Live Oak, Mahogany, Marlberry, Mastic, Mulberry, Myrtle Oak, Paradise Tree, Pigeon Plum, Pond Apple, Prickly Pear, Red Mangrove, Red Maple, Red bay, Saffron Plum, Sand Pine, Scrub Pine, Satinleaf, Saw Palmetto, Scrub Hickory, Sea Grape, Sea Oxeye, Slash Pine, Stoppers, Wild Lime, Sumac (southern), Sugar Berry (Hackberry), Torchwood, Wild Coffee, Varnish Leaf, Water Oak, Wax Myrtle, West Indian Cherry White Mangrove

#### **Application procedures:**

- 1. Fill out application information below to include:
  - a. applicant information
  - b. written statement giving reasons for removal, relocation, or replacement if necessary
  - c. for a new S.F.R., a site plan which shall include the dimensional location on a survey, scale drawing or aerial photograph, superimposed with lot lines of scale, of all existing or proposed structures, improvements and site uses, location of affected trees identified with an estimated size and number, etc.
  - d. for an existing residence, a drawing of house with location of trees to be removed, relocated can be submitted in lieu of site plan.
- 2. Place identification tape or ribbon on each tree for clarity to inspector if necessary.
- 3. Inspector will visit site and review application and pass, fail or revise.
- 4. Permit must be picked up and on site prior to work proceeding.
- 5. Permits expire if work does not begin within 3 months and if activity is interrupted over 45 days.
