File Number 43-0165629-001 Martin County

Dear Mr Merkin

On February 4, 2000, we received your application for an exemption to perform the following activities—construct a 960 square foot single family dock with at 160' x 5' access pier and a 20' x 8' terminal platform and associated boatlift and mooring area. This project is in the St. Lucie River (Class III waters of the state), located at 93 1/2 South Sewall's Point Road (Section 1 Township 38 South, Range 41 East), Stuart, Martin County

Your application has been reviewed to determine whether it qualifies for any of three kinds of authorization that may be necessary for works in wetlands or waters of the United States. The kinds of authorization are (1) regulatory authorization, (2) proprietary authorization (related to state-owned submerged lands), and (3) federal authorization. The authority for review and the outcomes of the reviews are listed below. Please read each section carefully. Your project may not have qualified for all three forms of authorization. If your project did not qualify for one or more of the authorizations, refer to the specific section dealing with that authorization for advice on how to obtain it.

#### REGULATORY AUTHORIZATION - EXEMPTION VERIFIED

The Department has the authority to review your project under Part IV of Chapter 373, Florida Statutes (Γ S), Title 62, Florida Administrative Code (F A C), and in accordance with operating agreements executed between the Department and the water management districts, as referenced in Chapter 62-113, F A C

Based on the information you submitted, we have determined that your project is exempt from the need to obtain a DEP Environmental Resource Permit under Rule 40E-4 051(3)(b),  $\Gamma$  A C. This determination is based solely on the information provided to the Department and the statutes and rules in effect when the application was submitted and is effective only for the specified activity. In addition, any substantial modifications in your plans should be submitted to the Department for review, as changes may result in a permit being required

#### PROPRIETARY AUTHORIZATION - GRANTED

The Department acts as staff to the Board of Trustees of the Internal Improvement Trust Fund and issues certain authorizations for the use of sovereign submerged lands. The Department has the authority to review your project under Chapters 253 and 258,  $\Gamma$  S Chapters 18-20 and 18-21,  $\Gamma$  A C, and Section 62-343 075,  $\Gamma$  A C

Your project may occur on sovereign submerged land and may require authorization from the Board of Trustees to use public property. As staff to the Board of Trustees, we have reviewed the proposed project and have determined that, as long as it is located within the described boundaries and is consistent with the attached general consent conditions, the project qualifies for consent to use sovereign submerged lands. Therefore, pursuant to Chapter 253.77, Florida Statutes, you may consider this letter as authorization from the Board of Trustees for the upland riparian owner to perform the project.

#### SPGP REVIEW - AUTHORIZATION GRANIED

Federal authorization for the proposed project is reviewed by DEP pursuant to an agreement between the Department and the US Army Corps of Engineers (the Corps) The agreement is outlined in a document titled Coordination Agreement Between the US Army Corps of Engineers and the Florida Department of Environmental Protection State Programmatic General Permit, Section 10 of the Rivers and Harbor Act of 1899 and Section 404 of the Clean Water Act

"Protect, Conserve and Manage Florida's Environment and Natural Resources"

Stan Merkin File Number 43-0165629-001 Page Two

Your project has been reviewed for compliance with a State Programmatic General Permit (SPGP) Your proposed activity as outlined on the attached drawings is in compliance with the SPGP program US Army Corps of Engineers (Corps) General conditions apply to your project, as attached No further permitting for this activity is required by the Corps The authority granted under this SPGP expires December 17, 2003 Your project must be completed prior to this expiration date

#### NOTICE OF RIGHTS OF SUBSTANTIALLY AFFECTED PERSONS

ł

Be advised that your neighbors and other parties who may be substantially affected by the proposed activity allowed under this determination of exemption have a right to request an administrative hearing on the Department's decision that the proposed activity qualifies for this exemption. If an administrative hearing is timely requested by a substantially affected person, the finding that the proposed activity qualifies for this exemption must be reconsidered, and it is possible that the hearing could result in a determination that the proposed activity does not qualify for the exemption. Under Rule 28-106 111, F.A.C., a request for such an administrative hearing must be filed with the Department's Clerk in the Office of General Counsel within 21 days of either (a) publication of notice in a newspaper of general circulation in the county where the activity is to take place, or (b) the substantially affected person's receipt of written notice which includes the information contained in Attachment (A)

The Department will not publish notice of this determination *Publication of this notice by you is optional and not required for you to proceed* However, in the event that an administrative hearing is held and the Department's determination is reversed, proceeding with the proposed activity before the time period for requesting an administrative hearing has expired would mean that the activity was conducted without the required permits

If you wish to limit the time within which all substantially affected persons may request an administrative hearing you may elect to publish, at your own expense, the enclosed notice (Attachment A) one time only in the legal advertisement section of a newspaper of general circulation in the county where the activity is to take place. If you wish to limit the time within which any specific person(s) may request an administrative hearing, you may provide such person(s), by certified mail, a copy of this determination, including Attachment A

For the purposes of publication, a newspaper of general circulation means a newspaper meeting the requirements of Sections 50 011 and 50 031, F.S. In the event you do publish this notice, within seven days of publication, you must provide to the following address a certification or affidavit of publication issued by the newspaper. If you provide direct written notice to any person as noted above, you must provide to the following address a copy of the direct written notice.

Florida Department of Environmental Protection, Southeast District - Port St. Lucie Branch Office Submerged Lands & Environmental Resources Program, 1801 SE Hillmoor Drive. Suite C-204, Port St. Lucie, FL. 34952

Thank you for applying to the Submerged Lands and Environmental Resource Program If you have questions regarding this matter, please contact **Bruce Jerner** of this office, at telephone (561) 398-2806

Sincerely,

Agy h Roderick

#### DISCLOSURE STATEMENT

State law requires construction to be done by licensed contractors. You have applied for a permit under an exemption to that law. The exemption allows you, as the owner of your property, to act as your own contractor even through you do not have a license. You must supervise the construction yourself. You may build or improve a one-family or two-family residence or a farm outbuilding. You may also build or improve a commercial building at a cost of \$25,000 or less. The building must be for your own use and occupancy. It may not be built for sale or lease. If you sell or lease a building you have built yourself within 1 year after the construction is complete, the law will presume that you built it for sale or lease, which is a violation of this exemption. You may not hire an unlicensed person as your contractor. It is your responsibility to make sure that people employed by you have licenses required by State law and by County or Municipal licensing ordinances. Any person working on your building who is not licensed must work under your supervision and must be employed by you, which means that you must deduct F I C A and withholding tax and provide workers' compensation for that employee, all as prescribed by law. Your construction must comply with all applicable laws, ordinances, building codes and zoning regulations. Florida Statues 489, 103(7)

Dear Mr and Mis Merkin

Stan and Cynthia Merkin

**BUILDING OFFICIAL** Gene Simmons

On February 5, 2004, we received your application for an exemption to perform the following activities install a jet ski lift on an existing 960 square foot dock in the St. Lucie River, Class III Waters of the State, located at 93 1/2 N Sewall's Point Road (Section 1, Township 38 South, Range 41 East), Stuart Martin County

Your application has been reviewed to determine whether it qualifies for any of three kinds of authorization that may be necessary for works in wetlands or waters of the United States The kinds of authorization are (1) regulatory authorization, (2) proprietary authorization (related to state-owned submerged lands) and (3) federal authorization The authority for review and the outcomes of the reviews are listed below Please read each section carefully Your project may not have qualified for all three forms of authorization. If your project did not qualify for one or more of the authorizations, refer to the specific section dealing with that authorization for advice on how to obtain it

#### 1. Regulatory Review - EXEMPTION VERIFIED

The Department has the authority to review your project under Part IV of Chapter 373, Florida Statutes (FS), Title 62, Florida Administrative Code (FAC), and in accordance with operating agreements executed between the Department and the water management districts, as referenced in Chapter 62-113, F A C

Based on the information you submitted, we have determined that your project is exempt from the need to obtain a DEP Environmental Resource Permit under Rule 40E-4 051(3)(b), (F A C)

#### Proprietary Review (related to state-owned lands) - GRANTED 2.

The Department acts as staff to the Board of Trustees of the Internal Improvement Trust Fund (B O T ) and issues certain authorizations for the use of sovereign submerged lands The Department has the authority to review your project under Chapter 253, FS, Chapter 18-21, FAC, and Section 62-343 075, FAC

Your project shall occur on sovereign submerged land and shall require authorization from the Board of Trustees to use public property As staff to the Board of Trustees, we have reviewed the proposed project and have determined that, as long as it is located within the described boundaries and is consistent with the attached general consent conditions, the project qualifies for consent to use sovereign submerged lands Therefore, pursuant to Chapter 253 77, Florida Statutes, you may consider this letter as authorization from the Board of Trustees for the upland riparian owner to perform the project

Stan and Cynthia Merkin File Number 43-0165692-002 Page Two

3. Federal Review (State Programmatic General Permit) - AUTHORIZATION GRANTED
Federal authorization for the proposed project is reviewed by DEP pursuant to an agreement between the
Department and the U.S. Army Corps of Engineers (the Corps). The agreement is outlined in a document titled
Coordination Agreement Between the U.S. Army Corps of Engineers and the Florida Department of
Environmental Protection State Programmatic General Permit, Section 10 of the Rivers and Harbor Act of 1899
and Section 404 of the Clean Water Act

Your project has been reviewed for compliance with a State Programmatic General Permit (SPGP) Your proposed activity as outlined on the attached drawings is in compliance with the SPGP program US Army Corps of Engineers (Corps) General conditions apply to your project, as attached No further permitting for this activity is required by the Corps The authority granted under this SPGP expires June 17, 2004. Your project must be completed prior to this expiration date

The determinations in this letter are based solely on the information provided to the Department and on the statutes and rules in effect when the application was submitted. The determinations are effective only for the specific activity proposed. These determinations shall automatically expire if site conditions materially change or if the governing statutes or rules are amended. In addition, any substantial modifications in your plans should be submitted to the Department for review, as changes may result in a permit being required. In any event, this determination shall expire after one year.

This letter does not relieve you from the responsibility of obtaining other permits (federal, state, or local) that may be required for the project

#### NOTICE OF RIGHTS OF SUBSTANTIALLY AFFECTED PERSONS

This letter acknowledges that the proposed activity is exempt from ERP permitting requirements under Rule 40E-4051(3)(b), FAC This determination is final and effective on the date filed with the Clerk of the Department unless a sufficient petition for an administrative hearing is timely filed under sections 120 569 and 120 57 of the Florida Statutes as provided below. If a sufficient petition for an administrative hearing is timely filed, this determination automatically becomes only proposed agency action subject to the result of the administrative review process. Therefore, on the filing of a timely and sufficient petition, this action will not be final and reffective until further order of the Department. The procedures for petitioning-for a hearing are set forth in the attached notice.

This determination is based on the information you provided the Department and the statutes and rules in effect when the application was submitted and is effective only for the specific activity proposed. This determination shall automatically expire if site conditions materially change or the governing statutes or rules are amended. In addition, any substantial modifications in your plans should be submitted to the Department for review, as changes may result in a permit being required. In any event, this determination shall expire after one year.

Be advised that your neighbors and other parties who may be substantially affected by the proposed activity allowed under this determination of exemption have a right to request an administrative hearing on the Department's decision that the proposed activity qualifies for this exemption. Because the administrative hearing process is designed to redetermine final agency action on the application, the filing of a petition for an administrative hearing may result in a final determination that the proposed activity is not authorized under the exemption established under Rule 40E-4 051(3)(b), F.A.C.

Stan and Cynthia Merkin File Number 43-0165692-002 Page Three

The Department will not publish notice of this determination. Publication of this notice by you is optional and is not required for you to proceed. However, in the event that an administrative hearing is held and the Department's determination is reversed, proceeding with the proposed activity before the time period for requesting an administrative hearing has expired would mean that the activity was conducted without the required permit

If you wish to limit the time within which all substantially affected persons may request an administrative hearing, you may elect to publish, at your own expense, the enclosed notice (Attachment A) in the legal advertisement section of a newspaper of general circulation in the county where the activity is to take place. A single publication will suffice

If you wish to limit the time within which any specific person(s) may request an administrative hearing, you may provide such person(s), by certified mail, a copy of this determination including Attachment A

For the purposes of publication, a newspaper of general circulation means a newspaper meeting the requirements of sections 50 011 and 50 031 of the Florida Statutes. In the event you do publish this notice, within seven days of publication, you must provide to the following address proof of publication issued by the newspaper as provided in section 50 051 of the Florida Statutes. If you provide direct written notice to any person as noted above, you must provide to the following address a copy of the direct written notice.

#### RESIDENTIAL REROOF WINDSTORM LOSS MITIGATION CERTIFICATION (FLORIDA STATUTE 553.844)

The following information is to be provided by roofing contractor or owner/builder on all re-roof applications for the purpose of obtaining compliance with recent changes to State Statute and referenced "Hurricane Mitigation Manual" Effective date October 1, 2007

Note These requirements apply to residential structures built prior to implementation of the FBC on March 1, 2002.

- · Value show proof of insured value of residential structure or a copy of the ad-valorem tax value.
- Provide copy of contract

All re-roofs regardless of value shall comply with the following.

Re-nailing All sheathing and decking shall be re-nailed per section 201.1 and a secondary water barrier installed

- Existing fasteners that are 8d clipped head, round head or ring shank and spaced 6 in. or less o.c. may be counted. Additional fasteners shall be 8d rink shank nails with round heads spaced at 6 in o.c. along framing
- Indicate below which method is to be used to satisfy the secondary water barrier requirements

All joints in roof sheathing shall be covered with a minimum of 4 in. strip of self-adhering polymer modified bitumen tape. Wood deck and self-adhering tape shall be covered by one layer of approved underlayment

Enture roof deck shall be covered with an approved self-adhering polymer modified bitumen cap sheet. No additional underlayment is required.

Exception. An approved 30# underlayment installed per HVHZ using nails and tin-tags and covered with an approved self-adhering polymer modified bitumen cap sheet or an approved cap sheet hot-moped shall be deemed to meet the requirements for secondary water harrier.

Residential Structures valued at \$300,000 or more shall comply with the following:

- · Roof to wall connections must be enhanced up to 15% additional cost of the re-roofing cost.
- A certified or registered general, building or residential contractor compliance affidavit must accompany the re-roof permit application and submit details to perform the following:
  - 1 Sufficient amount of cave sheathing shall be removed to view 6 ft. of roof rafters
  - 2. Wherever a strap is missing or an existing strap has fewer than 4 fasteners on each end of connection with the wall, the connection shall be strengthened by adding.
    - a Metal connectors, clips, straps and fasteners to achieve an uplift capacity as specified in Table 201.3 OR
    - b Approved strap ties or right angle gusset brackets with a minimum uplift capacity of 500 lbs shall be installed to the top plate or masonry wall below
    - c Refer to sections 201.3 1 to 201.3 4 for prescriptive requirements.
